

Leaflet Designs in India

Duration

The duration of a design registration is ten years from the date of filing or, if priority is claimed, from the priority date. The duration is renewable once with a term of 5 years, so that the maximum duration is 15 years.

Marking

Prior to marketing and sale, the article to which the registered design is applied must be marked with "REGISTERED" or "REGD" or "RD", and also with the design number appearing on the certificate of registration. This will enable the proprietor to claim damages in a successful infringement action. Failure to do so might disentitle the proprietor from recovering any penalty or damages in respect of any infringement of his design rights.

License

The license contract must be registered within six months from conclusion of the contract. We recommend you to contact us if you intend to grant a license under your design in India.
