

Leaflet Trademarks in Singapore

Duration

The duration of mark registration is 10 years from the date of filing the application for registration. The registration is indefinitely renewable for further 10-year periods.

Compulsory use

A registered mark must be used. An application for revocation may be made by any person if the mark is not used in Singapore by the owner or with his/her consent and in relation to the goods or services for which it is registered, within 5 years following the date of completion of the registration procedure (in the case of a national trademark registration, this date is recognized as the registration certificate issuance date), or if such use is suspended for an uninterrupted period of 5 years or more, unless the delay or suspension is due to proper reasons.

Marking

Marking is not compulsory. Possible marking includes: 'Registered Trademark', or '®'.

Miscellaneous

Any change of name or address of the proprietor, or any assignment or license to use the trade mark should be recorded on the register without delay. We suggest that you contact us in such event.
