

Leaflet Patents in Israel

Duration

The duration of the patent is 20 years from the date of filing of the application, subject to the payment of maintenance fees.

Compulsory use

There are no use requirements under the Israeli Patents Law. However, following 3 years of the grant of a patent or 4 years of the patent application, whichever is later, failure to work the patent in such a manner that the demand in Israel is met on reasonable terms may entail the grant of a compulsory license.

Marking

There are no marking requirements for patented products or processes, but markings like "patent" or "patented" are usual. Marked products have no implications for awarding compensation in case of past infringement.
