

Leaflet Patents in Saudi Arabia

Duration

A patent shall be protected for 20 years from the date of filing the application in Saudi Arabia.

Compulsory use

The Patent Office may grant a compulsory license upon application to any third person, provided that the patentee has not exploited or sufficiently exploited the invention covered by the patent within 4 years from the application filing date or 3 years from the grant date unless he justifies that with a legitimate excuse.

Marking

The number and date of the patent must be marked on the products covered by it. In the absence of sufficient marking patentee may not be entitled to claim damages in case of infringement. However, a patentee may nevertheless claim damages if he proves that he has served upon the infringer a notice concerning the existence of the patent; in such case damages may be claimed for the period after the notice had been served.
