

## Leaflet European Patent in Sweden

### Territory

The Swedish part of the European patent covers the territory of the Kingdom of Sweden.

### National patent number

No national patent number is assigned to the Swedish part of the European patent.

### Duration

Provided that the annual national renewal fees are paid, the patent has a duration of 20 years from the European filing date.

### Compulsory use

A patent should have been worked within 3 years after grant or 4 years after the filing date (whichever ends last); otherwise, it may be subject to compulsory licensing. Import of the invention to Sweden from a State within the EU or a member of the WTO can be considered as working of the invention.

### Marking

Marking is no requirement in Sweden and not marking has no adverse effect on the protection. However, marking is advisable and a common marking is

"Europapatent nr ... SE", or

"EP Patent nr ... SE", or

"Europatent No ... SE", or

"EP Patent No ... SE".

### EU member countries

Sweden is a member of the European Union (EU). As far as patents are concerned, this has the consequence that once products protected by the patent are sold by or with the permission of the patentee in one EU member country, shipment of these products into and out of other EU member countries basically cannot be prevented. Please do not hesitate to contact us if you have any questions on this issue.
